

ZIRAM GRANUFLO™

fungicide

Features and benefits

- AI: zinc dimethyldithiocarbamate
- 76% water-dispersible granule
- Broad-spectrum, protectant fungicide
- Multisite mode of action
- Low risk of resistance (FRAC M3)
- Use alone or in combination
- Excellent disease control

Crops

- Almonds
- Apples
- Apricots
- Blueberries
- Cherries
- Grapes
- Nectarines
- Peaches
- Pears
- Pecans
- Tomatoes

Key diseases

- Peach leaf curl
- Shot hole
- Anthracnose
- Botrytis
- Brown rot
- Downy mildew
- Early blight
- Leaf spot

EASTMAN

About Ziram Granuflo™

Growers can use Ziram Granuflo fungicide as a broad-spectrum, protectant fungicide to help protect fruits, nuts, ornamentals, and vegetables from disease development with multisite activity. Using Ziram Granuflo with other fungicide classes can lower your cost, increase your spectrum of control, and minimize resistance development. Ziram Granuflo is most effective when used before disease development.

Mode of action

Ziram Granuflo is a multisite fungicide (group M3) that inhibits spore germination and mycelium growth by interfering with various enzymes involved in the respiration process. Its ability to act on many sites of the biochemical process ensures that Ziram Granuflo remains at low risk for resistance development and retains its efficacy against many fungi.

Resistance management

- Tank mix a multisite fungicide with a single-site, mode-of-action fungicide.
- Apply multisite fungicides alone when disease pressure is low.
- Rotate between modes of action.

The formulation: Granuflo™

The water-dispersible granules (WDG) processing technique was developed by Taminco and registered under the trade name Granuflo. This high-quality formulation is virtually dust-free and disperses quickly in the spray tank. It doesn't clog nozzles and is not affected by freezing temperatures.

For sales inquiries and customer support, call 888-321-8472.

For more information, visit eastman.com/cropprotection.

Always read and follow label directions. For labels and safety data sheets (SDS), visit www.agrian.com or www.cdms.net.

Ziram Granuflo is manufactured by Taminco US LLC, a subsidiary of Eastman.
